

Internal Compliance Review – Chosanta Management

Executive Summary

Your documentation package demonstrates a strong safeguarding and governance framework for a child-focused emergency/special arrangements service. The overall impression is professionally structured, regulator-oriented, and operationally aware. The strongest areas include safeguarding, risk management, incident reporting, and staff conduct standards.

Key Strengths

- Strong safeguarding framework aligned to Children First Act 2015.
- Structured risk register with realistic operational risks.
- Well-developed staff code of behaviour and safeguarding expectations.
- Incident reporting pathways and escalation systems in place.
- Governance and emergency planning documentation present.
- Cross-document consistency improves credibility significantly.

Major Compliance Strengths

The documentation demonstrates clear awareness of:

- Child protection obligations
- Garda vetting references
- Mandated reporting procedures
- GDPR/confidentiality awareness
- Medication governance
- Infection control
- Emergency preparedness
- Residential supervision risks

Important Remaining Gaps

The main remaining gaps are likely operational rather than policy-based.

Highest priority areas:

1. Emergency Placement Procedure
2. Missing Child / Absconding Procedure
3. Recruitment & Vetting Procedure
4. Staff Supervision Framework
5. Training Matrix and Evidence Records
6. Quality Assurance & Internal Audit Systems
7. Governance Reporting Structure

Operational Evidence Required

Tusla/HIQA inspectors will likely expect operational evidence such as:

- Completed incident reports
- Fire drill logs
- Medication audits
- Staff supervision records
- Garda vetting records
- Training certificates
- Placement risk assessments
- Staff rotas and on-call systems

Inspection Risk Areas

Potential concerns during inspection may include:

- Strong policies but limited implementation evidence
- Unclear staffing governance
- Limited quality assurance systems
- Weak emergency placement workflow documentation
- Missing standalone absconding/missing child procedures

Overall Assessment

This no longer appears to be a basic or improvised policy pack. It resembles a serious pre-registration compliance framework with substantial safeguarding awareness and good governance foundations.

Estimated readiness:

- Policy readiness: Strong
- Safeguarding readiness: Strong
- Governance maturity: Moderate–Good
- Operational readiness: Moderate
- Overall registration viability: Potentially credible

Recommended Next Steps

1. Build a complete inspection evidence folder.
2. Finalise emergency placement and missing child procedures.
3. Develop training matrices and staff supervision systems.
4. Implement internal audits and governance reviews.
5. Prepare operational records demonstrating implementation of policies.
6. Conduct a mock inspection before Tusla engagement.

Summary Assessment Table

Area	Assessment
Safeguarding	Strong
Risk Management	Good
Medication Governance	Good
Operational Governance	Moderate–Good

Inspection Readiness	Moderate
Overall Registration Viability	Potentially Credible
