

Physical Intervention & Restrictive Practice Record

HIQA STANDARD 3 · TUSLA RESTRICTIVE PRACTICE REGISTER · TCI MODEL

⚠ CRITICAL: Physical intervention must only be used as an **absolute last resort** when all other alternatives have been exhausted and there is an immediate serious risk to the child or others. Every incident must be recorded on this form within **24 hours**, reported to the PIC immediately, and entered on the Restrictive Practice Register. Tusla must be notified via NIMS for all physical interventions.
