

Training Governance & Compliance Matrix

SECTION 1: PURPOSE, SCOPE & MANDATORY TRAINING

1 PURPOSE

This document establishes Chosanta Management's training governance framework. It is grounded in the following legislative and regulatory requirements:

- ✓ **Child Care (Standards in Children's Residential Centres) Regulations 2018 (S.I. No. 674/2017), Regulation 16 — Staff Training and Development:** The registered provider must ensure all staff have access to appropriate training to carry out their duties competently; training records must be maintained and available for inspection
- ✓ **HIQA National Standards for Children's Residential Centres 2018, Standard 6 (Responsive Workforce):** Providers must plan, organise, and manage the workforce; ensure staff have required qualifications, skills and competencies; provide effective induction for new staff; and support ongoing professional development
- ✓ **National Vetting Bureau (Children and Vulnerable Persons) Acts 2012–2016:** Mandatory Garda vetting before commencement of relevant work; Tusla-regulated services require re-vetting every **3 years**; vetting is non-transferable between organisations
- ✓ **Children First Act 2015:** All staff are mandated persons; Children First training is a statutory requirement and must be completed at induction and refreshed every 2 years
- ✓ **Child Care (Placement of Children in Residential Care) Regulations 1995 (S.I. 259/1995):** Training records, qualifications, and personnel files must be available at inspection

- ✓ All staff — full-time, part-time, relief, agency, volunteers, and student placements

5 TRAINING EXPIRY TRACKER

The Governance Officer maintains a centralised Training Expiry Tracker for all staff. This tracker is reviewed monthly and reported at governance meetings.

Staff Name	Training Course	Date Completed	Expiry Date	Status

⚠ Compliance Rule: Training that has expired or is due within 30 days is flagged as non-compliant. Staff with expired mandatory training may not work unsupervised until training is renewed. Non-compliance is reported to the PIC and Director immediately.

SECTION 3: COMPETENCY SIGN-OFF & TRAINING SCHEDULE

6 COMPETENCY SIGN-OFF PROCESS

Attending a training course alone does not confirm competency. Chosanta Management requires a competency sign-off process to ensure that training translates into safe, effective practice:

- ✓ **Observation:** Following training, the staff member is observed performing the relevant skill in practice by a senior staff member or PIC
- ✓ **Assessment:** A competency assessment form is completed — confirming the staff member demonstrates the required knowledge and skill to the expected standard
- ✓ **Sign-off:** Both the staff member and assessor sign the competency record — this is filed in the personnel record and the training tracker updated
- ✓ **Re-assessment:** Where a staff member does not meet the required standard, additional training, mentoring, or supervised practice is provided before reassessment
- ✓ **Critical competencies:** Medication administration, manual handling, and fire warden duties require competency sign-off before independent practice is permitted
